

Smoke-Free Parks

A group of junior high school students in Chico, called K.L.E.A.N., scoured local parks in October and November to pick up cigarette butt litter in community and neighborhood parks. K.L.E.A.N. stands for Kids Leading Everyone Against Nicotine. This is the litter the students collected during the Fall 2010 clean up event.

Fresh Air Chico is a project of the American Lung Association to encourage Chico park leaders to adopt a smoke-free park policy.
